

BORICUBA

Stebani Cruz

Introducing Stebani Cruz "La Boricuba" and her New Smash Single *Cougar in the House*

Stebani Cruz, "La Boricuba" the latest dynamic Latina sensation, will be releasing her single CD, "*Cougar in the House*", a blend of melodic Reggaeton and Latin Pop. This hit single creates an everlasting covenant of commitment and passion between the heart and soul, of the artist and the listener. Stebani's fire and ice style is true to her Latina roots.

"*Cougar in the House*" is now available on I-Tunes, TuneCore (and other online digital distributors). With the advent of older women dating younger men, a year ago Stebani Cruz recognized the need to put out a record that would earmark some of the trends of women in modern day America.

While Stebani was traveling overseas, to promote Latino youth, she contracted a life threatening illness known as viral meningitis. This illness took two years of Stebani's life, and jeopardized her ability to reach her goals and dreams. During this time, friends encouraged her to begin writing music to help her recovery. These songs are an inspiration about living life to the fullest, taking risks, seeing possibilities and most importantly that it is never too late to reinvent yourself. Her "sassy" voice tells a spellbinding story about living life to the fullest and taking risks — to become the dream.

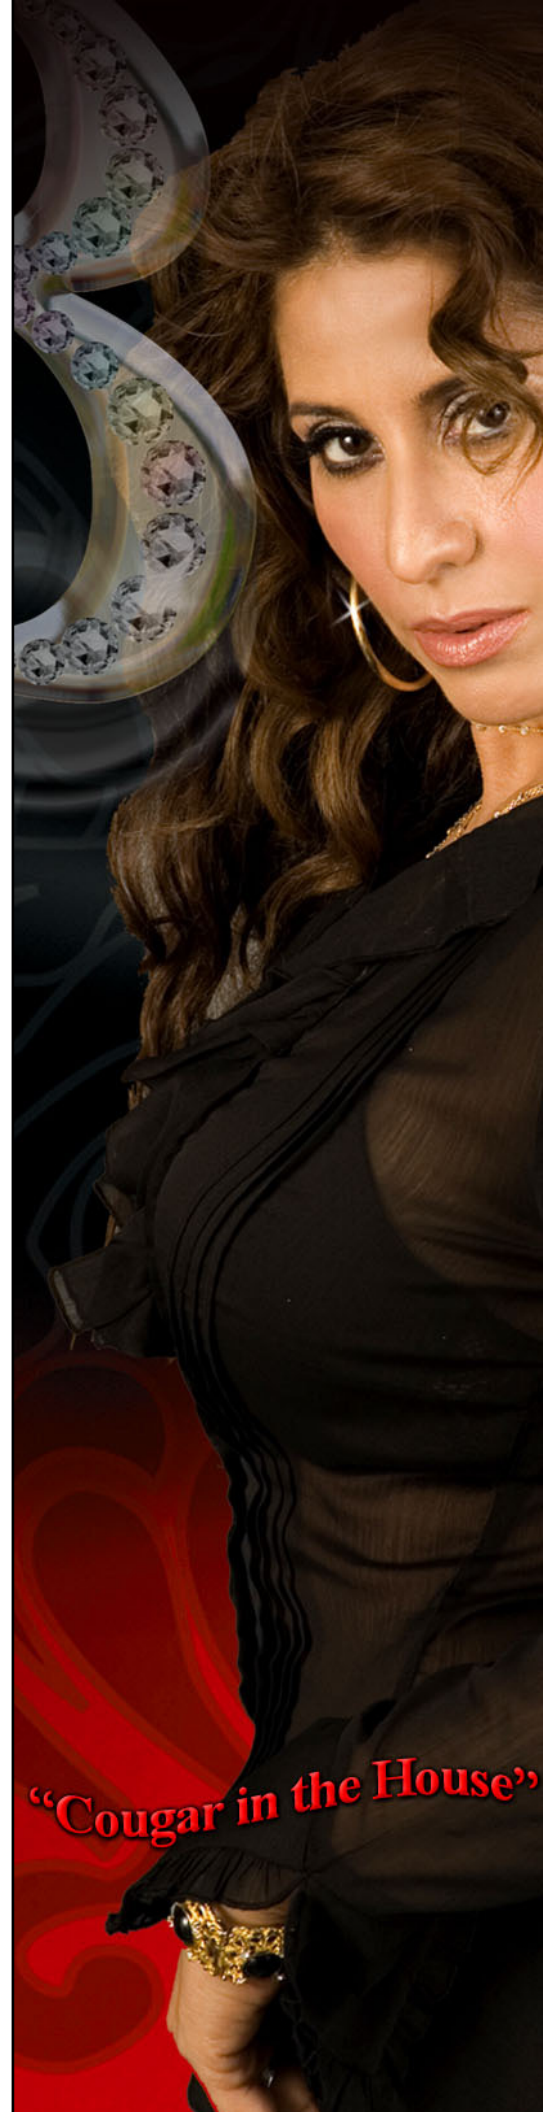

Radio Stations, music directors and DJs can listen to "Cougar in the House" by going to www.laboricuba.com/boricuba_music.html. This hit single was produced by Nely "El Arma Secreta" for Artillery Music and mastered by SP Killa. **Be prepared to be blown away by this new diva!**
